

# JOB POSTING

**JOB OPENING DATE:** Immediate

**JOB CLOSING DATE:** Until position is filled

**JOB TITLE:** SOFTWARE ENGINEER/.NET DEVELOPER    **DEPARTMENT:** Information Technology

**LOCATION:** Wilmington, CA

**CONTACT:** Human Resources Dept

## **SOFTWARE ENGINEER/.NET DEVELOPER**

**Position Summary:** This position will be responsible for focusing on web application development using the latest Microsoft (Visual Studio/.NET Framework, SQL Server, SharePoint, CRM and IIS) technologies in a multitude of business units across the organization. All applicants are expected to demonstrate a history of success, as well as a commitment of continued excellence in the following areas:

### **Experience and Aptitude:**

- Build applications for Windows Client, Office system, .NET Framework, SQL Server, and the Web.
- Track record of successful, solution-based implementations utilizing .NET 3.X/4 technologies including VB.NET, C#, WinForms, ASP.NET (Web Forms & Web Services), .NET Remoting, Smart Client, VBScript (and JavaScript), ADO.NET, ODBC, D/X/HTML, XML/XSL/XSD, CSS, IIS, and SQL Server.
- Perform full lifecycle applications development, enhancement, and maintenance assignments. General understanding of Active Directory and TCP/IP.
- Quickly adapt to business and manage end-user expectations.
- Effectively manage time, resources, and deadlines through project planning.
- Apply best practices including change management, effective error handling, and performance instrumentation.

### **Qualifications/Skills Required:**

- Minimum of 3 years experience with MS Visual Studio, .NET Framework, and SQL Server; 5+ years of software development experience with a comprehensive knowledge of Object-Oriented Analysis Methods and Unified Modeling Language (UML).
- Silverlight, HTML4/5, Java, PowerBuilder, Crystal Reports/Business Objects XI, and CA AllFusion experience, a plus. Dynamics GP/CRM, Epicor Financial Suites and Insurance applications software experience preferred.
- Microsoft Certifications in MCTS: .NET Framework 3.X Windows Applications, MCPD: Enterprise Applications Developer, MCTS: .NET Framework 3.X Web Applications, MCTS: .NET Framework 3.X Distributed Applications, or MCITP: Database Developer and Microsoft Certified Database Administrator (MCDBA) preferred.
- Computer Science BS, MS or PhD.
